 REPORT NO.

25X1X

1. There are no bridges across the Danube linking Bulgaria to Rumania, although a site near Ruse was surveyed in May 1951 by Bulgarian and Russian engineers.
2. A plan produced by a Bulgarian engineer calls for a bridge four and one-half kilometers long from a point approximately two kilometers east of Ruse to Giurgiu, Rumania. It is estimated that this bridge would take from one and one-half to two years to build.
